*"The product looks so natural and has become a real feature in our straw bale house. We had been looking for some time for a product to finish the project and it was exactly what we wanted. You went out of your way to visit and advise on how to use the stone. A perfect product and easy to apply by a non professional person. We are thrilled with the overall result. I have passed your information on to visitors and people in the building industry."*

**Tony McAlister** Yackandandah VIC

*"John was extremely helpful. Product was delivered in good condition and we the carpenters placed the stone in position in a bar area of a lodge. Everyone was more than happy with Hoobler Stone. "*

We are looking to use the Sandstone on our next home in the very near future. Your service met our needs and expectations, we are happy with the products and we recommend Hoobler Stone to others."*

The guys who did the installation had not used your product before and were amazed at how much easier it was to use as against slate etc. The finished product has really reinforced our decision to go ahead and upgrade our entertaining area that we have wanted for many years. It is great that we can now sit back and relax in a magnificent surrounding."*

**A & K Mifsud** Kynton VIC

*"We have had our Hoobler Stone feature wall since 1978. It really adds warmth and character to our fairly long living room. We never tire of it and over the years our friends and acquaintances have always commented on how great the wall looks."*

**Astrid & Dieter Weise** VIC

*"Deb & John were very helpful through the whole process. We especially appreciated being able to phone John for advice on installation during the project."*

**Kelly Buchanan** Hodgsonvale QLD

*"We gave Hoobler Stone the challenge of matching existing stonework in our house. The end result in colour matching was excellent. The laying of the stonework is also brilliant in that it is difficult to determine where the old stone ends and where the new stone begins."*

**Caroline Fittal** Tecoma VIC

*"Hello Deb & John. I want to thank you both for the efficient manner you dealt with me. Laying the stone on my fireplace all happened as you said it would when I did it myself following your instructions. The stone looks absolutely fabulous and we are thrilled with your product. We get great comments from all our friends ... even the builder who built our house came over for a look and was most impressed when he saw it. He thought the stone was real so I told him where I got it and how easy it was to do yourself. Thanks for your knowledge and allowing us to obtain the stone without any fuss at all. I will have more jobs in the future I'm sure. Best regards."*

**Bill Turczynski** Bowral NSW

*"The staff at Hoobler Stone were very obliging, gave good advice and prompt service. The products are easy to use and give an authentic stone look. The end result is exactly what we hoped for, in a much cheaper form than the real thing!"*

**Phil Bowden** Cootamundra NSW

*"Dear John & Deb. We would like to thank you for making the stone for our house. As soon as we saw Hoobler Stone we knew that it was what we wanted. When we finally got to see it on our house we were blown away. You could not have a better person in Andrew to promote and lay Hoobler Stone in Tasmania. He transformed our house into a home. I would highly recommend him to anyone in Tassie who is considering Hoobler Stone as an option. Thanks again John. Next time you are in Tasmania, come and see our finished home."*

**Grant & Jo Woolley** Exton TAS

*"As a builder using the product we are very happy with the service as well as the product. The stone was easy to obtain and delivery no problems. We would like to retain some pieces of each type of stone to recommend it to our clients."*

*"Hoobler Stone has totally transformed our once cement sheeted house into a solid looking stone building. It's a permanent solution so we never have to worry about the on-going maintenance of painting again. We were very happy with the effect and others have commented with positive feedback and may consider using the product. I would highly recommend this product to any one who is looking to build or re-clad."*

**Wayne & Kylie Fitzgerald** Barongarook VIC

*"Hoobler Stone was very easy to access via the website. John was very accommodating when it came to providing samples and delivering the product. The follow up call was impressive too! The stone was very easy to apply and provided the effect we wanted to achieve on our feature wall."*

**Miranda Fogarty** Brighton VIC

*"First and foremost I chose Hoobler Stone because it looked so natural and realistic. I have always loved stone but until now real stone was not a viable option in my renovation due to size and weight. I was delighted to find Hoobler Stone on the internet with so many colours and stone choices. It was very easy for a Do-It-Yourselfer with minimal experience. The friendly service and assistance from John was icing on the cake. Thank you Hoobler Stone!"*

**Lynne Munro** Belgrave South VIC

*"My wife and I have always admired the Hoobler Stone products, and are delighted with our fireplace and your service. We are so impressed with the product that we intend to use Hoobler Stone on all of the external walls of our home. We have recommended Hoobler Stone to our friends and our recommendation extends to the contractor who installed the stone."*

**David Brown** Donvale VIC

*"I happened on you by chance, through the MBAV display centre. I saw several stone products - yours was a good unique look, fairly priced, and locally made. Your service has been very good in an age when service is a dirty word. You and your staff have gone above and beyond what I am used to. Pleasure doing business with you."*

**Paul Holcdorf**

**Darella Developments** Elsternwick VIC

*"We applied Hoobler Stone in 2003 and are very happy with the result. The stone has transformed our home from a drab house into a loved possession and we are now proud to call it home. The house is now worth so much more in character and value. When we resell it will be a home that people will want simply because of its appeal. And all as a result of apply the stone. Thank you for the quality of your product and the fact that it is made in Australia is a great bonus. Thank you."*

**Eric McIntyre** Greensborough VIC
